WhizReveal

User Manual

English / Bahasa Indonesia / 简体中文

RUN	PRESENT	REVEAL
Configure a pool and draw count.	Open an audience display.	Shuffle, then reveal winners.

A practical guide for live draws, presentations, and session history

ENGLISH

Start a draw with confidence

The Controller runs the session. The Display window is the audience canvas.

01 **Set the pool**

Enter Total Samples. A value of 250 creates the pool 1 through 250. The pool locks after the first draw.

02 **Choose winners**

Set Number of Draws to the number of winners revealed by one click. The range is 1 to 500.

03 **Choose the rule**

Turn on No Duplicates when each number may appear only once in the session. Previous winners remain excluded.

04 **Apply settings**

Click Apply settings. Settings lock while the draw animation is running.

05 **Launch the audience view**

Click Launch Display. Native Windows uses another available monitor when possible.

06 **Draw**

Click Draw or press Enter while a control is not focused. Numbers cycle for about 1.6 seconds, then winners settle with a staggered reveal.

ENGLISH

Read the live canvas

Every Display control is synchronized from Controller.

Current Draw

Shows the latest draw. Number tiles are centered as a group, and a partial final row is centered too.

Full History

Shows the session newest first. Each group is labeled 1st Draw, 2nd Draw, 3rd Draw, and so on. Groups stay centered and long histories scroll vertically.

Presentation scale

Use Display scale from 50% to 200%. It is independent from Controller text size and preview number size.

Controller text size

Use A- and A+ for 90% to 150%. Click the percentage to return to 100%. The preference is saved locally.

Display shortcuts

Escape exits fullscreen. F11 toggles fullscreen. Alt+F4 closes the focused window.

Session safety

Draw results are saved before both windows receive them. New session clears history and unlocks Total Samples while preserving presentation settings.

BAHASA INDONESIA

Mulai pengundian dengan nyaman

Controller mengatur sesi. Display menjadi kanvas nomor untuk penonton.

01

Atur kumpulan nomor

Masukkan Total Samples. Nilai 250 membuat kumpulan nomor 1 sampai 250. Kumpulan terkunci setelah pengundian pertama.

02

Tentukan pemenang

Atur Number of Draws sesuai jumlah pemenang dalam satu klik. Rentangnya 1 sampai 500.

03

Pilih aturan

Aktifkan No Duplicates agar satu nomor hanya muncul sekali dalam sesi. Nomor yang sudah keluar tetap dikecualikan.

04

Terapkan pengaturan

Klik Apply settings. Pengaturan terkunci saat animasi pengundian berjalan.

05

Buka tampilan penonton

Klik Launch Display. Windows native akan memakai monitor lain jika tersedia.

06

Undi

Klik Draw atau tekan Enter saat kontrol tidak fokus. Nomor berganti sekitar 1,6 detik, lalu pemenang muncul bertahap.

BAHASA INDONESIA

Baca kanvas secara langsung

Semua kontrol Display tersinkron dari Controller.

Current Draw

Menampilkan hasil terbaru. Kartu nomor diposisikan di tengah, termasuk baris terakhir yang tidak penuh.

Full History

Menampilkan sesi dari terbaru ke lama. Setiap kelompok memiliki label 1st Draw, 2nd Draw, 3rd Draw, dan seterusnya. Kelompok tetap berada di tengah dan riwayat panjang dapat digulir.

Display scale

Gunakan Display scale 50% sampai 200%. Skala ini terpisah dari ukuran teks Controller dan nomor preview.

Ukuran teks Controller

Gunakan A- dan A+ dari 90% sampai 150%. Klik persentase untuk kembali ke 100%. Pilihan tersimpan di perangkat.

Pintasan Display

Escape keluar fullscreen. F11 mengubah fullscreen. Alt+F4 menutup jendela aktif.

Keamanan sesi

Hasil disimpan sebelum dikirim ke kedua jendela. New session menghapus riwayat dan membuka Total Samples, tetapi pengaturan presentasi tetap.

简体中文

轻松开始抽奖

Controller 负责设置和操作。Display 是面向观众的号码画布。

01 **设置号码池**

输入 Total Samples。输入 250 会创建从 1 到 250 的号码池。第一次抽奖后号码池会锁定。

02 **设置中奖数量**

设置 Number of Draws，决定一次操作显示多少个中奖号码。范围是 1 到 500。

03 **选择规则**

开启 No Duplicates 后，同一个号码在整个会话中只出现一次。已经抽出的号码仍会被排除。

04 **应用设置**

点击 Apply settings。抽奖动画运行时设置会锁定。

05 **打开观众画面**

点击 Launch Display。原生 Windows 会在可能时把 Display 放到其他显示器。

06 **开始抽奖**

点击 Draw，或在控件没有焦点时按 Enter。号码快速变化约 1.6 秒，然后通过分段动画揭晓。

简体中文

阅读实时画布

所有 Display 控制都会从 Controller 同步。

Current Draw

显示最新一轮抽奖。号码卡片整体居中，最后一行数量不足时也会保持居中。

Full History

按从新到旧显示整个会话。每组都有 1st Draw、2nd Draw、3rd Draw 等顺序标签。每组号码居中，历史较长时可以垂直滚动。

Display scale

使用 50% 到 200% 的 Display scale 调整观众号码大小。它独立于 Controller 文字和预览号码。

Controller 文字大小

使用 A- 和 A+ 将 Controller 文字调整到 90% 至 150%。点击百分比恢复 100%，设置会保存在设备。

Display 快捷键

Escape 退出全屏。F11 切换全屏。Alt+F4 关闭当前窗口。

会话安全

抽奖结果会先保存，再发送给两个窗口。New session 清除历史并解锁 Total Samples，同时保留演示设置。

QUICK REFERENCE

One screen, three languages

Keep this page near the operator during a live event.

Action	English	Bahasa Indonesia	简体中文
Draw	Click Draw or press Enter.	Klik Draw atau tekan Enter.	点击 Draw 或按 Enter。
Current view	Latest draw, centered tiles.	Hasil terbaru, nomor di tengah.	最新一轮，号码居中。
History view	Ordinal labels and centered groups.	Label urutan dan kelompok di tengah.	顺序标签和居中的号码组。
Fullscreen	Escape / F11	Escape / F11	Escape / F11
New session	Clear history and unlock the pool.	Hapus riwayat dan buka kumpulan.	清除历史并解锁号码池。

Brand and palette

WhizReveal by JAYCEE 曾令强 uses five interface colors: #0B0D10, #171C22, #2A333D, #5D6F82, and #E7EEF5. The Display keeps attention on the numbers and draw order.
